

SCIENTIFIC SYMPOSIUM

Research and Innovation for a Sustainable Baltic Sea Region

The Baltic University Programme welcomes researchers focused on sustainability in the Baltic Sea Region

When, where and who can apply?

- 24th - 28th of August 2020
- Visby, Sweden
- Open for University rectors, researchers, PhD. students and faculty members

Programme

We offer an opportunity to present your research and share your findings with other colleagues from all around the region. The presentations will be a part of the symposium along with seminars, rectors conference, excursions and much more.

Publication

Accepted and presented abstracts will be offered the opportunity to be published in a special issue in the journal *Sustainability*, as well as in the book "Universities, Sustainability and Society: Supporting the Implementation of the Sustainable Development Goals" published by Springer.

Submit your abstract now!

Deadline 31st of January
